COVID-19 BACKCOUNTRY CABINS PROCEDURE

The Cariboo Ski Touring Club is committed to encouraging healthy sport and use of its facilities while maintaining the safety of its members and users. While using this facility, please remember to follow COVID prevention protocols and review the club's Infection Prevention Plan on the website: www.caribooski.ca

- Do not enter the cabin if exposed to Covid-19, or if you are unwell and presenting with cold/flu like symptoms.
- Please clean all touched dishes with hot and soapy water and thoroughly rinse.
- Wash and rinse all surfaces with hot and soapy water
- Use provided disinfectant spray/wipes to clean all touched surfaces including tables, chairs, counters, tool handles, door handle and stove handle – wooden surfaces do not need to be disinfected.
- In case of an emergency in which multiple users occupy the cabin, wear masks or face coverings and sleep on different floors, if possible. Do not share dishes and disinfect more frequently (after each use).
- Remove and wash used towels and cloths, put clean cloths in a ziploc, and return them on the next visit.

Remember, there is no current scientific evidence that cold will kill the virus, so please clean and disinfect after each use to prevent the spread of the novel coronavirus and promote healthy and safe use of the facility. We appreciate your efforts.
